

Preet Patel

Delhi, India | patelpreet404@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Computer Science student at Delhi Technological University building backend systems, AI tools, and developer-focused software.

EDUCATION

Delhi Technological University B.Tech in Computer Science and Engineering CGPA: 7.727 (current)	Sep 2023 - May 2027
International Indian School Al Jubail Senior Secondary, PCM with Computer Science 85.6%	2021 - 2023

EXPERIENCE

Rang Technologies - Software Development Intern Remote, New Jersey	Jun 2026 - Aug 2026
- Built a Flask and Supabase attendance platform for 50+ employees across four workflows, including IP-based verification. - Created an admin dashboard for work hours, login history, breaks, and attendance insights; optimized 10+ API endpoints and queries. - Reduced manual attendance processing by 80% through automated verification and reporting.	

PROJECTS

ResearchPaper AI - RAG Document Q&A Source Interactive sample Python, FastAPI, LangChain, FAISS, SQLite	
- Built a modular PDF question-answering pipeline with semantic retrieval, streaming responses, conversation memory, and page-level citations. - Added an automated offline test suite and a public browser-local sample that demonstrates cited answers without uploads or API costs.	
AI Learning Management System Source Next.js, Gemini, Clerk, Drizzle ORM, Neon PostgreSQL, Inngest	
- Generated course outlines, notes, flashcards, quizzes, and Q&A for multiple learning goals; orchestrated background content generation.	
OptiLang - Mini Compiler Source C++17, Flex, Bison, LLVM IR	
- Implemented an eight-stage compiler and five optimization passes, reducing benchmark instruction count by 35%.	
Crypto Ransomware Detection Research Python, Cuckoo Sandbox, Random Forest, SHA-256, RSA	Ongoing
- Designed a detection framework combining behavior classification and signature matching for early threat identification.	

SKILLS

Languages: Python, Java, C, C++, SQL, JavaScript, TypeScript | **Frontend:** React, Next.js, HTML, CSS
Backend & data: FastAPI, Flask, Node.js, REST APIs, PostgreSQL, MySQL, MongoDB, Supabase, SQLite
AI & tools: RAG, LangChain, FAISS, Gemini, Scikit-learn, Docker, Git, Pytest, Drizzle ORM, Inngest

ACHIEVEMENTS

Smart India Hackathon 2024 participant; multiple national hackathons. IBM SkillsBuild training in RAG and generative AI; Kaggle machine learning and Python certificates.
